

Paramount Pools

NZ MADE SINCE 1967

Paramount Pools have been proudly made from high quality steel & vinyl construction with a choice of liner colours and sold in New Zealand since 1967.

The Lido pool is designed for installations which have a deck or tile finish, resulting in a superior looking pool at an affordable price.

The Big Six features a seated finish around the walls and is designed for above ground installations or any situation where the top of the pool is not completely decked or tiled.
